

WC Docket # 18-155

My husband and I, along with our 6 children do not have access to T.V., radio etc. and would be very concerned should the free conference calling services be eliminated. It is very important to us and use it daily for family, news, singing calls etc.

As a taxpayer, and a free conference calling client, I ask you to please reconsider acting on WC Docket No. 18-155. My free conference calling services are currently at risk of being completely eliminated and costing me, millions of others and our businesses.

I am urging you to refrain from eliminating services that I and millions of other Americans use regularly.

Long-distance carriers will not be negatively affected, financially or otherwise, if free conference calling services are left alone. In fact, they stand to gain upwards of \$80 million.

However, if the FCC does decide to remove these services, I and millions of other American citizens and American businesses will be immediately and negatively affected. We will no longer be able to use these services for free and will instead be forced to pay for conferencing services provided by the long-distance carriers if we want to reach our non-profit organizations, our families, our churches, singing calls, news calls, prayer groups, support groups, board meetings, committee meetings, startups, schools, and global corporate communities and their families.

Widows and other lonely individuals are finding comfort in this type of free conference calling.

Do not take away my free conference calling services and further line the pockets of major long-distance carriers.

I ask the Federal Communication Commission to refrain from proceeding with its rulemaking in WC Docket No. 18-155.

WC Docket number 18-155 regarding:
updating the intercarrier Compensation Regime
including conference calling services.

It grieves me greatly that the Conference line
might be shut down. I am an elder person
that gets much enjoyment out of it.
Many a long evening goes by quickly when
we can enjoy music. There's many shut-ins
that cannot go to church services, but can
enjoy the church service over the phone
line. Many prayer request go over this line
for the sick and injured. My prayer is you
might consider this and leave this as it is.
Thank you very much!

I, as a user of free conference calling, would plead that this service might not be discontinued. We know of many handicaps and disabled who get much encouragement from the Handicapped line. Also many elderly people find this line a good form of entertainment to pass their time

To whom it may concern:

I am writing to you concerning WC Dochart number 18-155 regarding up dating the intercomin compensation regime including conference calling services.

I would like you to reconsider making any changes as we sincerely appreciate being able to use the conference line in many applications like news calls, singing line, history line plus church services ect.

My wife recently had heart surgery and we were able to enjoy our worship service in our own home. We will miss these services very much if they are taken away. Please keep the lines as they are and we wish you the Lord Blessing as you consider this important matter.

Sincerely
